

Cross a Crater: Code Submission

Please follow the instructions given on the portal in order to upload your code. You will find these folders inside **Code Submission** folder:

Code Submission folder Structure:

1. Embedded C:

Please put your Embedded C codes inside this folder. Make sure your code is well documented and commented according to the rules and format provided on the portal.

2. Python:

Please put your Python codes inside this folder. Make sure your code is well documented and commented according to the rules and format provided on the portal.

Name your final python code file **“task5-main.py”** and put it in this folder.

Uploading Code on Portal:

- Please rename your Code Submission folder as: eYRC#CC#<Team ID>_Code
(For example: If your team ID is 25 then, save it as eYRC#CC#25_Code)
- Upload the zipped format of this folder according to the instructions provided on the portal.
